unique online graphics

One is malignant - which one ?

Real Time - online graphics for 3D impressions of audience opinion split in different response groups to enhance dialogue.

Group-specific answers

Are you ...?

All answers

One is malignant - which one ?

Our Graphics Engine has been the gizmo of choice by global enterprises like Microsoft, Cisco, Nokia, and many more to be used in various events, launches, seminars, congresses - all there is to it given its ease of adaptation and various capabilities for a number of kinds of use. The use is only limited by imagination. If you can imagine it, we can provide it.

Sky Board - Feedback and Comment Wall

Incoming messages can be shown to the audience as such or they can be filtered/moderated before they are projected to the screen.

What about the work atmosphere.. how does it affect the workplace?

It's important that a sense of unity is evoked in the team and employees will no longer just feel that they're working for themselves...

definitely it's money that counts :)
